

*Digitisation in the Research System:  
Chances and Challenges*

Date: June 26 - 28, 2017  
Venue: Landgut Stober in Groß Behnitz near Berlin  
Participants: 50 postdoctoral researchers

---

**Programme**

---

**1. Day**

---

**From 17.00**      **Arrival, registration, reception and getting to know each other**

**18.30**            **Welcome by Matthias Kleiner**

***Conversation***

**Digitisation: the revolution of the research system?  
Matthias Kleiner and Christian Stein (*tbc*)**

***Followed by barbecue***

---

**2. Day**

---

9:05            **Welcome**

9:30            **Parallel workshops**

- **Managing your data along the research process**  
Convenor: Jonas Recker, Leibniz-GESIS, Köln  
*Research funders now frequently request data management and sharing plans. This workshop deals with questions of how to ensure that the research data you collect remains usable and understandable both in your project and beyond, how it can be protected against loss and made accessible to others .*
- **Using and "designing" digital teaching/learning tools**  
Convenor: Catrina Grella and Jan Renz, HPI, Potsdam  
*This workshop deals with questions of which digital media are sensible for which content. It will offer a first insight into how to design digital education tools.*
- **Virtual reality as a new medium**  
Convenor: Christian Stein, game.lab, Berlin  
*What is behind the hype of virtual reality? What does it mean when the gaze turn into the controller and what is immersion? And how does it impact science? The workshop will give you a theoretical and practical insight into VR as a new space of knowledge.*
- **CoScience: working and publishing together with the internet**  
Convenor: Lambert Heller, Leibniz-TIB, Hannover

*This workshop will offer the opportunity to get an introduction to this emerging field. It deals with questions concerning ways of collaborative science and will introduce you to new ways and tools for working together.*

13:00	<b>Lunch</b>
14:00	<b>Impulses from the workshops and discussion: Effects of digitisation on research processes and publishing</b>
14:45	<b>Speed-Networking</b> Getting to know the expertise that surrounds you (in a very short time!)
15:45	<b>Coffee &amp; tea</b>
16:30	<b>Careers and Ideas</b> Talks and World Café on career ways inside academia and beyond
18:00	<b>Dinner with an opportunity to continue conversations</b>
19:00	<b>Leibniz Network Mentoring and Leibniz PostdocNet Initiative introduce themselves</b>
19:30	<b>Science Slam</b>

---

**3. Day      Personal career strategies**

---

9:15	<b>Welcome and short introduction</b>
9:30	<b>Parallel seminars (lunch break around 12:00)</b> <ul style="list-style-type: none"> <li>• <b>Shaping your future: career planning</b> Coach: Neela Enke <i>PhD done, first or second postdoc complete: what now. On basis of your personal values, preferences and priorities as well as competence you will work on a criteria catalogue for your own qualification profile to enable you to take the next steps in your career.</i></li> <li>• <b>Career building – with goals and networks</b> Coach: Julia Lehnhof <i>Facing multiple career options require careful and conscious choices. In a structured sequence of inputs and exchange, this workshop offers the opportunity to reflect their career goals and to discover networks that could support to achieve them.</i></li> <li>• <b>Laterales Führen: Herausforderungen aktiv begegnen (passive Deutschkenntnisse erforderlich)</b> Coach: Zoi Güssow <i>In vielen Bereichen des wissenschaftlichen Arbeitsalltags ist laterales Führen an der Tagesordnung. Wie ist es möglich, trotzdem Einfluss zu gewinnen? Wie können eigene Ziele vermittelt, andere dafür gewonnen und Projekt-Vorgaben umgesetzt werden? In diesem Seminar setzen wir uns mit den Grundprinzipien lateralen Führens auseinander und adressieren neben den Chancen einige Herausforderungen, Widerstände und Konfliktsituationen. Teilnehmer/innen haben die Möglichkeit eigene Fälle mit einzubringen.</i></li> <li>• <b>Positioning yourself within the research community and beyond: networking in action</b> Coach: Michael Gordian</li> </ul>

*Discover how you can create synergies with people , how to meet them and inspire a fruitful exchange. In this seminar, you analyse your networks and their potential. You find out about the art of small talk and how to initiate new collaborations and contacts in order to broaden your horizon and your career (and life) options.*

14:30 **End of seminars**

15:00 **Funding opportunities**

- DAAD – German Academic Exchange Service
- DFG – German Research Foundation
- ERC – European research council grants and EU funding
- Leibniz start-up service

17:00 **Farewell and Snack**

---

#### **Further information**

**Langut Stober can be reached with the regional train from Berlin main station in approx. one hour. Whilst we are happy cover all cost of the event including food and drinks, travel expenses have to met by the participant or his or her institute. You can book cheaper train tickets to the venue for Germany via the following link:**

**<http://www.landgut-stober.de/klimafreundliche-anreise-kopie.html>**

**Rooms are 80 Euros per person per night and will be booked automatically upon the confirmation of your place.**
